

ROMANIVKA DISTRICT CLUB

Irpin, street Popovich, 1.
Built in 1980.

📍 F7R6 + 63

BEFORE THE WAR

Romanivka Club was a creative space where you can spend meaningful time, gather around traditions, teach children creativity and just socialize. There were children's groups in acting, Petrykivka painting, and vocal classes. A rock band and a school of drummers were included. The club was arranged as a cozy auditorium, where not only classes of creative studios, but also concerts, performances and festive events of cultural and educational content constantly took place.

The club building was one-story, built of silicate brick produced by the Bucha brick factory, with a

total area of 194.6 square meters. The club had a spacious hall with a stage and two club rooms.

AFTER THE RASHISTS INVASION

In March 2022, the club was destroyed by the Russian occupiers. It witnessed the courage, victory, despair, death, hopelessness, salvation and heroism of Irpin residents. As a result of Russian aggression, the building lost its roof, windows and doors. The walls cracked, the heating system was destroyed. The cultural institution was completely looted.

The preliminary cost of the object is €3 400 000
